

What do we need to do?

Our Corporate Responsibility principles are:

- ✓ to act at all times with integrity and in accordance with our purpose and values, being open and accountable for our actions
- ✓ to champion diversity and preserve the safety of our people, customers and communities
- ✓ to actively support small businesses and those most 'vulnerable' in our community
- ✓ to make a positive impact on the environment through management of our business operations and working with our networks on environmental issues
- ✓ to build the capability of our people, customers and communities to participate in an e-commerce world and provide accessible e-commerce solutions that drive positive social, environmental and economic outcomes
- ✓ to foster innovation and collaboration, and
- ✓ to respect and retain the trust of our stakeholders through change.

Our goal

We believe in the notion 'creating shared value' for both the APG and the communities we serve. Through our actions we aim to drive tangible business benefits for APG and at the same time build social, environmental and economic value for Australia.

Seen something that is unlawful or improper?

You need to report actual or suspected unlawful or improper behaviour. Check out the policy for more information.

What do you need to do?

When you're at home, you play a part in building a better future for everyone and creating shared values for your family and community. It's the same at work.

Every day we help citizens, communities, businesses and government connect with each other across the country, regardless of their size and where they are located, fulfilling our purpose to help our people, customers, and communities build a better future - Everyone, Everywhere, Everyday.

What happens if you do something unethical/not in line with our shared values? Proven breaches may result in disciplinary action including dismissal. A proven breach involving a contractor may involve termination of a contract for services.
